CONFERENCE:

Digital safeguarding conference

Running alongside Safer Internet Day 2022 (February 08), this conference highlights the importance of understanding the positives and pitfalls attributed to the internet, device use and social media when it comes to safeguarding. An often-cited point of disconnect and disagreement between young people and professionals, lonely or isolated individuals and those trying to support, digital safeguarding is an area that needs increased awareness and understanding. This programme has been prepared to share current information and intelligence to safeguarding practitioners working directly with those in need of support to promote a clearer understanding of digital safeguarding and signpost useful information and resources for continued development.

Audience
All practitioners working with children, young people or vulnerable individuals, DSL/DSO, DDSL, Safeguarding Manager/Lead, Safeguarding Governors, Safeguarding Trustees.
